## Product information sheet

| Supplier's name or trade mark:   |        |                                    | Paulmann Licht GmbH   |          |
|--|--------|------------------------------------|---|----------|
| Supplier's address<br>Model identifier:  |        |                                    | Quezinger Feld 2, DE-31832 Springe-Völksen<br>28330<br>LED  |          |
|  |        |                                    |   |          |
| Lighting technology used:  |        | LED                                |   |          |
| Light source cap-type (or other electric interface)  |        | GU5,3                              |   |          |
| Mains or non-mains:  |        | NMLS                               | Connected light source (CLS):   | no       |
| Colour-tuneable light source:  |        | no                                 | Envelope:   | no cover |
| High luminance light source:   |        | no                                 |   |          |
| Anti-glare shield:   |        | no                                 | Dimmable:   | nein     |
| Product parameters   |        | ·                                  |   |          |
| Parameter  |        | Value                              | Parameter   | Value    |
|  |        | Genera                             | I product parameters:   |          |
| Energy consumption in on-mode (kWh/1<br>000 h), rounded up to the nearest<br>integer   |        | 4                                  | Energy efficiency class:  | G        |
| Useful luminous flux (Фuse), indicating<br>if it refers to the flux in a sphere (360°),<br>in a wide cone (120°) or in a narrow<br>cone (90°)    |        | 200 at 360 °                       | Correlated colour temperature, rounded<br>to the nearest 100 K, or the range of<br>correlated colour temperatures,<br>rounded to the nearest 100 K, that can<br>be set: | 2700     |
| On-mode power (Pon), expressed in W  |        | 3                                  | Standby power (Psb), expressed in W and rounded to the second decimal   |          |
| Networked standby power (Pnet) for<br>CLS, expressed in W and rounded to the<br>second decimal   |        |                                    | Colour rendering index, rounded to the<br>nearest integer, or the range of CRI-<br>values that can be set   | 82       |
| Outer dimensions<br>without separate<br>control gear,<br>lighting control<br>parts and non-<br>lighting control<br>parts, if any<br>(millimetre) | Height | 45                                 | Spectral power distribution in the range 250 nm to 800 nm, at full-load   |          |
|  | Width  | 50                                 |   |          |
|  | Depth  | 50                                 |   |          |
| Claim of equivalent power  |        | yes                                | If yes, equivalent power (W)  | 21 W     |
|  |        | Chromaticity<br>coordinates (x and | 0,459   |          |
|  |        | y)                                 | 0,417   |          |
|  |        | Parameters f                       | or directional light sources:   |          |
| Peak luminous intensity (cd)   |        |                                    | Beam angle in degrees, or the range of<br>beam angles that can be set   |          |
|  |        | Parameters for                     | LED and OLED light sources:   |          |
| R9 colour rendering index value  |        | 0                                  | Survival factor   | 100      |
| The lumen maintenance factor   |        | 80                                 |   |          |
|  |        | Parameters for LE                  | D and OLED mains light sources:   |          |
| Displacement factor (cos φ1)   |        | 0,75                               | Colour consistency in McAdam ellipses   | SDCM 6   |
| Displacement factor  |        |                                    | 1   |          |
| Claims that an LED<br>replaces a fluoresce   |        | no                                 | If yes, then replacement claim (W)  |          |
